before the rain came and flooded the land.
Only Noah and his family were safe,
because they obeyed God.

God told Noah to build a big boat,
because He was going to send
a flood to cover the land.
He told him exactly how big to build it.

2

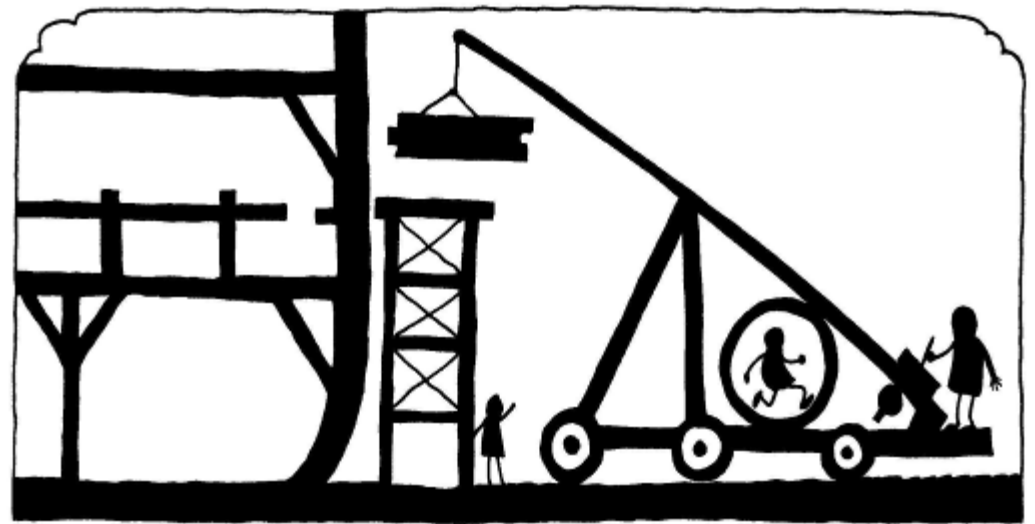

The boat, called an ark, was to be about as long
as two football fields and three stories high,
with a window and a door.
A boat this big had never been built before!

It was God's plan to save Noah and his family and a father and mother of all the animals and birds. They would all need food too!
